PROFESSIONAL SUMMARY

Data Scientist with an M.S. in Data Science and 6 years of experience in software engineering, building enterprise-scale applications and data-intensive systems. Skilled in machine learning, LLMs and data pipelines using Python, SQL, Spark. Proven ability to enrich data, prototype solutions, and deliver data-driven narratives that inform business decisions in fast-paced environments.

TECHNICAL SKILLS

Programming: Python, SQL, Cypher, Spark

Machine Learning: ML algorithms, Topic Modeling, Feature Engineering, Model Evaluation, Statistics

Generative AI & LLMs: Information Extraction, Knowledge Graphs, Entity Resolution, Prompt Engineering

Data Engineering: ETL, Data Modeling, Data Transformation, Data Quality, Docker

Cloud & Databases: AWS (S3, EC2), Neo4j, Salesforce CRM

Visualization: Tableau, Matplotlib, Seaborn, Neo4j

Tools & Frameworks: Pandas, Scikit-learn, PyTorch, Hadoop

PROJECTS

LLM-Based Information Extraction & Knowledge Graph System, [/aditidas3/Evidence-Exploration](#) Jan 2026 – Jun 2026

- Built a two-stage LLM extraction pipeline for heterogeneous documents, a Vision LLM for page classification and a Text LLM for entity/relationship extraction, achieving an F1 score of 83.4% against a manually annotated gold standard.
- Constructed a page-anchored Neo4j knowledge graph from the extracted entities and relationships, designing an ontology to define entity types and relationships enabling structured querying over document collections, with LLM-driven entity resolution to optimize graph quality across the full corpus.
- Built a FastAPI-backed natural language query interface returning evidence-backed subgraphs with explainable reasoning and source provenance, proving feasibility for evidence-backed Q&A applications.

Sephora Product Reviews Analysis, [/aditidas3/Sephora_product_review_analysis](#) Sep 2024 - Dec 2024

- Generated a taxonomy of skincare concerns using topic modeling on 1.1M Sephora customer reviews, enriching product data with thematic categories.
- Crafted a data-driven narrative that sentiment and topic-level concerns are key drivers of product recommendations, influencing product and marketing strategy.
- Enriched product reviews with sentiment scores and topic categories, creating derived features that improved recommendation prediction accuracy to 96% using XGBoost model

JD to Resume Gap Analysis and Tailoring, [/aditidas3/JD_Resume_Gap](#) Sep 2025 - Dec 2025

- Built a multi-step agent with LangGraph that ingests a job description and resume, identifies skill/experience gaps, and drafts tailored resume edits using DeepSeek for extraction and reasoning.
- Tackled real production concerns along the way, tuning token consumption, resolving environment load-order and dependency conflicts, and adding hallucination detection to keep generated edits grounded in the source resume.

PROFESSIONAL EXPERIENCE

Deloitte, Consultant Mar 2022 - Aug 2023

- Delivered two Salesforce CPQ implementations, focusing on pricing, configuration logic, and workflow automation to support business analytics and reporting, with custom development in Apex, Visualforce, and LWC.
- Collaborated with stakeholders and cross-functional teams to meet business objectives in a fast-paced consulting setting.

Lister Technologies (acquired by Bounteous Sol.), Sr. Software Engineer Apr 2020 - Mar 2022

- Developed and customized Sales, Service, and CPQ cloud solutions, including reporting and analysis, and played a key role in building the App Analyzer AppExchange app.
- Defined key metrics to track application usage, productivity, and organizational health generating insights on installed packages.

Cognizant Technology Solutions, Programmer Analyst Nov 2017 - Apr 2020

- Developed and supported web applications and e-commerce systems built drupal, magento and cakephp for healthcare and retail clients, supporting structured content management and internal systems.
- Improved application reliability and maintained structured content management systems.

EDUCATION

University of California, San Diego Sep 2024 - June 2026

M.S. in Data Science and Engineering, 3.85 GPA

Birla Institute of Technology, Mesra Aug 2013 - June 2017

B.E. in Electrical and Electronics Engineering, 7.8 CGPA, Distinction

CERTIFICATIONS

Salesforce CPQ Specialist • Salesforce Certified Platform Developer I • Salesforce Certified Administrator
